

The natural approach to septic system maintenance

Septic Aid™ tablets

Septic Aid™ releases millions of beneficial bacteria into your septic system. These bacteria enhance the natural populations and replace those bacteria lost to antimicrobial soaps and other harsh chemicals. They go straight to work digesting excessive grease, fat, protein, starch and other organic compounds that may otherwise accumulate and cause problems.

Septic Aid™ tablets

Use Septic Aid™ tablets once a month to help keep your septic system trouble free between pumping. Septic Aid™ tablets are a powerful septic system cleaner and treatment in an easy to use effervescent tablet. Simply place in a toilet, allow dissolving, and flushing. It's that easy!

Benefits:

- Easy to use effervescent tablets
- Digests grease and other organic waste
- Helps protect and rejuvenates clogged drain fields
- Safe for all plumbing
- Keeps drains free flowing
- Reduces septic tanks odors
- Environmentally friendly
- Keeps drain lines from clogging
- Prevents costly septic tank back ups

**Avoid costly
septic tank
repairs!**

**No chemicals
or other
additives, only
uses pure
bacteria**

**Eliminate
backups, odors
and clogs
...naturally.**

The natural approach to septic system maintenance

Septic Aid™ Total Tank Shock!

Use Septic Aid™ Total Tank Shock Treatment for severely clogged septic system tanks and drain fields to enhance and produce bio-colonization of beneficial bacteria. Simply throw the dissolvable pouch inside a septic tank and let millions of bacteria do the work for you!

- Easy to use dissolvable pouch
- Millions of beneficial bacteria start instant bio-colonies to get your septic tank working quickly
- Reduces septic tanks odors
- Reduces costly repairs
- Environmentally friendly

Use our dosing system for Septic Aid™ and Drain Blast™. All our drain products can be dosed regularly into the system to keep up regular maintenance.

Simply drop
into your
septic tank!
It's that easy.

Drain Blast™

An easy-to-use, biological mop water and drain treatment for homes and commercial establishments. **Degrades organic material in cracks, crevices, drain lines and soda lines.** Disrupts the habitat that flies require for reproduction. **Removes food source for other insects, including cockroaches and other vermin.** Ideal for drain treatment in sinks, baths, urinals, floor drains and other problematic drain areas.

- Compatible with all floor cleaners – no change of soap required
- Once a day treatment – use your regular cleaner for additional cleanings
- One tablet per mop bucket – eliminate waste from over-pours
- STRONGEST BIOLOGICAL FLOOR CLEANER on the market
- Clean grout in 60 days!
